## News

**Meadow Lake, SK January 7, 2008**

### First FSC-certified forest in Saskatchewan

Saskatchewan forestry company Mistik Management Ltd. (Mistik) is pleased to announce the certification of its 1.8 million ha Forest Management Agreement (FMA) area to the Forest Stewardship Council's (FSC) 2004 National Boreal Standard (Canada) effective November 16, 2007.

The 1.8 million ha Mistik FMA area is located in northwest Saskatchewan (Figure 1). This large expanse of boreal forest is home to a number of Aboriginal communities. The residents of these communities continue to use the natural abundance of the forest within the FMA area for sustenance and other traditional use activities.
